The most important money is lending to an Indian bank account within minutes. Thanks for your tape back and for the rating. I topped up my account from my bank account on October 28 and before writing this had not yet enrolled in my account I called customer service about 10 times and every time they respond they will fix the problem but nothing happens so far I do not recommend app for anyone due to lack of customer support We regret to note this. Please contact us support@e-wallet.ae your contact details so we can resolve your problem. Loved the seamless check-in process, cash back for the money transfer of 100 Dirhams to Egypt woohooo Hi Hsharaf, we are so happy to hear this! Our main goal is to create the easiest, fastest and safest payment payment UAE. If you have any suggestions to improve the service or have any questions, please send us an email support@eWallet.ae. You can also call us at 800eWallet. Thank you! The developer, Emirates Telecommunications Corporation, pointed out that the application's privacy practices may include data processing, as described below. For more information, you can learn about the developer's privacy policy. The developer does not collect any data from this app. Privacy practices can vary, for example, from the features you use or your age. Find out more Developer website Privacy Policy UAE based digital payment service eWallet launches its international money transfer service in 200 countries and territories around the world, it announced April 2. The service entails free international real-time remittances at competitive rates. Digital boarding from home allows contactless payments, including instant money transfers to any mobile phone number in the UAE, as well as account payments and mobile top-ups. Digital Financial Services, a joint venture between telecommunications operator Etisalat and Noor Bank, has launched eWallet in partnership with MoneyGram International. Remittances can be made digitally in more than 350,000 locations consisting of banks, over-the-counter (OTC) agents and international mobile wallet operators. Offer only for a limited period. Depending on the destination of the recipient, the client of the e-wallet can either send the funds directly to the recipient's bank account, or to the mobile wallet. We understand that in light of the current global situation, people are increasingly choosing to send money digitally from the comfort and security of their homes, said Ahmed Al-Awadi, Chairman of eWallet. As people work to support their families and loved ones around the world, we are committed to enabling them to safely and instantly transfer money to more than 200 countries and territories around the world. Regulated and licensed by the UAE Central Bank, users of e-wallets should not have a bank account, credit or debit card for digital payments. Customers only need a valid Emirates ID and a WORKING UAE mobile number to register with an e-wallet account. Once registered, users can top up their wallet balance and start sending and receiving money between mobile phones, transferring to their own or third-party bank accounts, and settle trading and payment payments. Users can also deposit and withdraw cash from their wallets by visiting the nearest location, as suggested in their app. You need to know more about this service. View More Viewing Less No fees and VAT will apply to the sender. The recipient may be charged in accordance with his country's fees and taxes. Please be sure to read the updated Terms and Conditions. This is a limited-time offer
